Subject: EN71-3 Safety on Children toys

We hereby declare that coatings listed below fulfilⁱ the requirements of European norm EN71-3.

AU472/13	DT452/00	TH0735/00
AU474/13	TZ99xx/BB	TH0784/00
AT7160/00	TZ99xx/NN	DT0436/00
XA4080/00	TH0720/00	DT0424/00
TU271/13	TH0712/00	TU0038/00
TH780/00	TL0099/BB	DT0040/00
TU217/13	TL0099/NN	TH0748/00
TH765/00		TP2009/xx (all colours)

EN71-3. This norm defines the requirements (determines the upper limit) regarding migration of some elements from materials that toys are made from, provided always that the toy is used in expectable and predictable way in consideration of child's normal behaviour and of the toy's function and characteristics. Regarding coatings above mentioned and taking into consideration the limits of heavy metals migration, defined in norm EN71-3, as well as assuming that the contact with child sweat and saliva belongs to standard way of use of toys, we hereby declare that the migration of heavy metals does not exceed the upper limit determined in norm EN71-3, thus there is no harmful transfer of heavy metals from lacquer film to children hands. Thereby, with regards to the norm EN71-3, the products here mentioned can be used for coating children toys and children furniture.
